COVER LETTER

Dear Sir / Madam,

My name is Danish Saeed, I am a post-graduate in Graphics Communication and specialize in real-time broadcast graphics. For the past 18 years I have worked in the broadcast industry where I transitioned my career from a motion graphics designer into a broadcast design manager. Since 2010, I have been working exclusively on VizRT for the beIN Media Group's HQ (Aljazeera Media Group).

My experiences have driven me to a proficient level in using transition logic and virtual/augmented reality-based graphics. I have led the design of various international tournaments, leagues and studio graphics. Currently working in a fast-paced environment, my strong initiative and exceptional organizational skills, have driven me to work well under pressure in a television production environment.

In my existing role, I am also involved in sub-contracted graphics from market leading agencies, including Reality Check Systems, WTVision, Alston Elliot, View / Parallaxes. This enabled me to work collaboratively and enhance my knowledge and skills in intelligent systematic designing in VizRT.

I enjoy a reputation for being a very hard-working individual and now wish to develop my career internationally. I am confident that my skills and experience will be an excellent addition to the success your company.

Please find enclosed my resume to support my application. I look forward to discussing suitable opportunities or positions with you.

I look forward to hearing from you.

DANISH SAEED
